

September 7, 2007

Mr. Gerald Thibeault  
Executive Officer  
Santa Ana Regional Water Quality Control Board  
3737 Main Street, Suite 500  
Riverside, California 92501-3339

Dear Mr. Thibeault,

Enclosed are the following documents for City of Lake Elsinore:

“Annual Reporting Forms for Fiscal Year 2006-2007”  
“Annual Reporting for Construction Site Inspections”  
“Annual Reporting for Industrial Commercial Facility Inspections”

Sincerely,  
CITY OF LAKE ELSINORE

Ken A. Seumalo,  
Public Works Director

# **ANNUAL REPORTING FORMS**

**Provision No. XV.B of the Permit and Provision IV.B.5 of the Monitoring and Reporting Program require the Permittees to prepare and submit a unified fiscal analysis with each Annual Report.**

1. Please provide a summary of your agency's:
  - A. expenditures for the previous fiscal year
  - B. budget for the current fiscal year
  - C. description of the source of funds

The table below is a suggested format for the fiscal summary.

**Fiscal Analysis Summary**

Labor	2080 hrs	\$19.50 per hr.	\$40,560.00
Vehicle	12000 miles	\$ 0.37 per mile	4,440.00
Material	Lump sum	\$5,250.00	<u>5,250.00</u>
		Sub total	\$50,250.00

Contract Labor			
	600 hrs	\$65.00 per hr	<u>\$39,000.00</u>
		Sub total	\$39,000.00

**CLARIFIER MAINTENANCE**

City Yard			\$1,200.00
Lakeshore Drive			1,200.00
Stadium			<u>2,800.00</u>
		Sub total	\$5,200.00

**ADMINISTRATION**

Supervisory Personnel	300hrs	\$90.00per hr	<u>\$27,000.00</u>
		Sub total	<u>\$27,000.00</u>

Total	\$121,450.00
Other costs @ 15%	<u>18,217.50</u>

Total Budget \$139,667.50

**Attach additional information and/or supporting documents on separate sheet(s) as necessary.**

**LEGAL AUTHORITY**

Contact Person: **Alex Gutierrez**  
Prepared By: **Alex Gutierrez**

Telephone: **951-671-3124**  
Date: **September 3, 2007**

**Provision No. I.B.1.a and V of the Permit requires each Permittee to maintain adequate legal authority as required by the NPDES Municipal Stormwater Permit program [40 CFR Part 122.26(d)(2)(i)(A-F)].**

- (i). *Adequate legal authority. A demonstration that the applicant can operate pursuant to legal authority established by statute, ordinance or series of contracts which authorizes or enables the applicant at a minimum to:*
  - (A) *Control, through ordinance, permit, contract, order or similar means, the contribution of pollutants to the municipal storm sewer by storm water discharges associated with industrial activity and the quality of storm water discharged from sites of industrial activity;*
  - (B) *Prohibit through ordinance, order or similar means, illicit discharges to the municipal separate storm sewer;*
  - (C) *Control through ordinance, order or similar means the discharge to a municipal separate storm sewer of spills, dumping or disposal of materials other than storm water;*
  - (D) *Control through interagency agreements among co-applicants the contribution of pollutants from one portion of the municipals system to another portion of the municipal system;*
  - (E) *Require compliance with conditions in ordinances, permits, contracts or orders; and*
  - (F) *Carry out all inspection, surveillance and monitoring procedures necessary to determine compliance and noncompliance with permit conditions including the prohibition on illicit discharges to the municipal separate storm sewer.*

1. Have your stormwater ordinances, or other legal authorities for implementing the NPDES Permit changed during the reporting period? Yes  No

If so, please provide a summary of the changes.

**Provision No. V.F requires the Permittees to annually provide a report containing a review of**

**LEGAL AUTHORITY**

2007 Annual Progress Report

Santa Ana NPDES Municipal Stormwater Permit

**their Storm Water Ordinances and their ordinance enforcement practices to assess their effectiveness in prohibiting non-exempt, non-storm water discharges to the MS4s.**

**V.F** Does your agency's Stormwater Ordinance prohibit:

1. Sewage where co-permittee operates a POTW and associated sewage collection system?  
Yes  No
2. Wash water resulting from hosing or cleaning of gas stations and other types of automobile service stations?  
Yes  No
3. Discharges resulting from the cleaning, repair, or maintenance of equipment, machinery or facilities, including motor vehicles, concrete mixing equipment, portable toilet servicing, etc?  
Yes  No
4. Wash water from mobile auto detailing and washing, steam and pressure cleaning, carpet cleaning, etc?  
Yes  No
5. Water from cleaning of municipal, industrial, and commercial areas including parking lots, streets, sidewalks, driveways, patios, plazas, work yards and outdoor eating or drinking areas, containing chemicals or detergents and without prior sweeping, etc?  
Yes  No
6. Runoff from material storage areas or uncovered receptacles that contain chemicals, fuels, grease, oil or other hazardous materials?  
Yes  No
7. Discharges of runoff from the washing of toxic materials from paved or unpaved areas?  
Yes  No
8. Discharges from pool or fountain water containing chlorine, biocides, or other chemicals; pool filter backwash containing debris and chlorine?  
Yes  No
9. Pet waste, yard waste, debris, sediment, etc?  
Yes  No
10. Restaurant or food processing facility wastes such as grease, floor mat and trash bin wash water, food waste?  
Yes  No
11. If any of the above points have not been met, please describe what actions are being taken to satisfy these requirements.

**City Staff is in the process of developing and ordinance prohibiting the discharge of mobile detailing and carpet cleaning waste water into the MS4's.**

*(continued on next page)*

12. Please summarize the effectiveness evaluation of your ordinance, ordinance enforcement

**Attach additional information and/or supporting documents on separate sheet(s) as necessary.**

**LEGAL AUTHORITY**

practices with regard to prohibiting non-exempt, non-stormwater discharges to the MS4.

**Enforcement of City Ordinances is becoming more successful due to an increase of City Personnel and training. Increased awareness and communication between divisions is broadening inspection coverage and enforcement. Currently City Personnel is in the process of revising Storm Water ordinances to insure they comply with the Current NPDES permit and new WQMP requirements.**

**ILLEGAL CONNECTION / ILLICIT DISCHARGE CONTROL**

*2007 Annual Progress Report*

*Santa Ana Region NPDES Municipal Stormwater Permit*

Contact Person: Alex Gutierrez  
Prepared By: Alex Gutierrez

Telephone: 951-671-3124  
Date: September 3, 2007

**Provision Nos. VI.A and VI.B of the Permit requires each Permittee to continue to prohibit illicit connections and illegal discharges to the MS4s, to continue to implement and improve routine inspection and monitoring and reporting programs for their MS4s, to investigate and eliminate or permit illicit connections or illegal discharges, and to immediately, upon becoming aware of the circumstances, investigate all spills, leaks, and/or illegal discharges to the MS4s.**

1. Estimate the amount of pipe and/or open channel facilities currently owned, operated or maintained by your agency:

Pipe 4100 L.F.      Channel 1000 L.F.

2. Describe your agency's current program/plans for detecting illegal connections to the MS4.  
**City's field crew observe and report illegal connections or discharges into the MS4. Staff responds to any complaint in this regard**

3. Describe your agency's current program/plans for enforcing the elimination of illegal connections to the MS4.  
**City's Code Enforcement and Engineering staff are authorized to inspect and issue citations when found necessary.**

4. Over the past year, has your agency's overall level of effort substantially increased, decreased, or stayed the same?      Increased     Decreased     No Change

5. Describe your agency's program for enforcing regulations regarding illicit discharges and improper disposal of pollutants into storm drains/channels.  
**The individual responsible for the illicit discharge is notified to stop the illicit discharge and clean up any residue, and instruct the entity to take corrective action to clean the discharge of any undesirable pollutants. The individual may be reported to SARWQCB.**

6. Over the past year, has your agency's overall level of effort substantially increased, decreased, or stayed the same?      Increased     Decreased     No Change

7. Did your agency conduct any reconnaissance inspections of its stormwater facilities for the 2006-2007 fiscal year?      Yes     No

If yes, please identify the amount of pipe or channel inspected:

Pipe \_\_\_\_\_ L.F.      Channel \_\_\_\_\_ L.F.

*(continued on next page)*

**ILLEGAL CONNECTION/ILLICIT DISCHARGE CONTROL**

2007 Annual Progress Report

Santa Ana NPDES Municipal Stormwater Permit

7. What percentage of your agency's stormwater facilities have been inspected?

Amount of pipe: **100%**

Amount of channel: **100%**

8. What method of inspection was used?

Visual

Smoke testing

Dye testing

Video

Other (describe): \_\_\_\_\_

9. To date, how many illicit connections have been found? 0

Number into pipes: \_\_\_\_\_

Number into channels: \_\_\_\_\_

10. Has your agency designated an employee or department to receive, log, and follow up on reports of illegal dumping or suspicious discharges? Yes  No

If yes, please identify the principal point(s) of contact:

Department: **Community Development**

Department: **Public Works**

Section: **Code Enforcement**

Section: **Engineering**

Name: **Fred Lopez**

Name: **Alex Gutierrez**

Telephone: **951-674-3124**

Telephone: **951-674-3124**

If no, please describe your current plans (including a time schedule) for responding to reports of illegal dumping or suspicious discharges.

11. Does your agency maintain an incident log, database, or other records of illegal dumping/illicit discharge reports? Yes  No

If yes, please attach a sample listing of the incident log or database report.

12. Please identify the location where these records are kept.

Department: **Public Works**

Name: **Alex Gutierrez**

Telephone: **951-674-3124**

VI.C Has your agency implemented control measures to reduce and/or to eliminate the discharge of pollutants, including trash and debris, from MS4s to the Receiving Water? Yes  No

If yes, please describe the measures implemented.

**The Public Works Director has assigned staff to become knowledgeable with treatment requirements. Implementation of the control measures is done in co-operation with Public Works and the Person(s) responsible for the discharge.**

*(continued on next page)*

Attach additional information and/or supporting documents on separate sheet(s) as necessary.

**The Co-Permittees may have several departments involved in implementing and/or administering WQMP requirements. The WQMP section 2.3, Table 1 identifies the departments with WQMP implementation responsibility for each Co-Permittee. Since the assignment of these responsibilities may change, the Co-Permittees will update this table in each Annual Report.**

1. The departments responsible for development review and conditions of approval were identified in the WQMP approved on September 17, 2004 and are shown in Table 1 below. Have the responsible departments changed during the reporting period?

Yes  No

If yes, please annotate Table 1 below with the updated responsible department.

**Table 1. Co-Permittee Departments Responsible for Conditions of Approval and Project-Specific WQMP Review (from WQMP approved 9-17-2004)**

Co-Permittee	Primary Responsibility	Secondary Responsibility
County of Riverside	Planning Department with assistance of Riverside County Flood Control & Water Conservation District	Transportation and Land Management Agency – Building and Safety Department
Beaumont	Public Works	Planning
Calimesa	Planning Department	Public Works Department
Canyon Lake	Building and Safety	Code Enforcement
Corona	Public Works Department – Land Development Section	Public Works Department – Special Projects Section (NPDES)
Hemet	Public Works Department – Development Engineering	Public Works Department
Lake Elsinore	Engineering Division	Public Works/Code Enforcement
Moreno Valley	Public Works Department – Land Development Division	Public Works Department – Enterprise Services Administration Division
Murrieta	Engineering Department	Planning Department
Norco	Engineering/Public Works Department	Planning Department
Perris	Public Works	City Engineering
Riverside	Public Works Department	Planning Department

Co-Permittee	Primary Responsibility	Secondary Responsibility
San Jacinto	City Engineer/Public Works Inspections	Building Division/Building Inspections
Temecula	Public Works	Public Works

**Monitoring and Reporting Program section IV.B.6. requires the Co-Permittees to describe the proposed implementation of the WQMP and DAMP for the next fiscal year. The description shall include tasks, responsibilities, and schedules for program implementation. The Co-Permittees have developed the WQMP that was approved on September 17, 2004, and the DAMP that was submitted on January 1, 2005 to describe the program level implementation. The Co-Permittees maintain their respective policies and procedures at the local agency level.**

**Per the WQMP section 2.3, the Co-Permittees are required to document their procedures for implementation of the WQMP, including a description of departmental responsibilities. The Co-Permittees' documented procedures shall be included in their 2006/2007 Annual Report.**

2. Please describe the local policies and procedures for implementation of the WQMP. A suggested reporting format (sections 5.1 and 6.4 of the draft Urban Runoff Management Plan) is attached to the Annual Report - Request for Information Transmittal Letter.

## **DEVELOPMENT PROJECT REVIEW, APPROVAL, AND PERMITTING**

### **Process Overview**

For all New Development and Significant Redevelopment Projects that do not have Conditions of Approval or Tentative Tract, Subdivision, or Parcel map approval by January 1, 2005, the project applicant is required to prepare a project-specific WQMP that is in conformance with the Riverside County WQMP for Urban Runoff, which is Appendix O of the Riverside County DAMP. The primary objective of the WQMP, through application of Site Design, Source Control, and Treatment Control BMPs on a project-specific basis, is to ensure that the land use approval and permitting process will minimize the impact of Urban Runoff on Receiving Waters. The ordinance that provides the City the authority to implement and enforce the WQMP is discussed in Section 3.4 of this URMP. The policies and procedures for project review, approval, permitting, and permit close-out are described in Section 6.4 of the Riverside County DAMP.

The Planning Department coordinates the land use case processing. This includes compliance with CEQA procedures, general plan conformity, ordinance consistency, and public health and safety requirements. The Community Development Department works closely with many other departments to ensure proper review of these issues. Together, these departments review Priority Development projects for compliance with WQMP requirements. The Engineering Department reviews preliminary project-specific WQMPs, issues standard conditions of approval and reviews final project-specific WQMPs for priority development category projects in City as described in the Third-term MS4 Permit. Other development projects are required to incorporate site design, source

**Attach additional information and/or supporting documents on separate sheet(s) as necessary.**

control, and/or treatment control BMPs through similar conditions of approval or permit conditions.

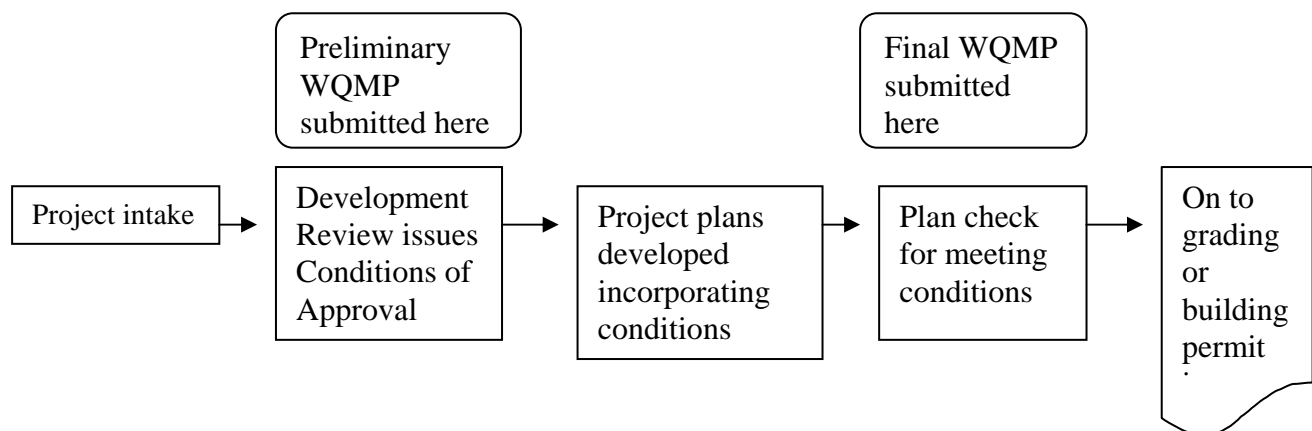

### Identifying Development Projects Requiring a Project Specific WQMP

The Engineering Department project application packets include a checklist that allows a project proponent to self-certify the need for a project-specific WQMP. Project proponents must complete the appropriate project application packets as part of their project submittal. Upon receipt of a completed project application, the planner accepting the case will review the self-certification to determine if a project-specific WQMP is required. If a project-specific WQMP is required, the planner will verify that a preliminary project-specific WQMP is included with the packet. The planner will then forward copies of the project application, including the project-specific WQMP, to the Engineering Department for review and approval. During the preliminary review of the project, the NPDES Coordinator will verify the self-certification. If the project proponent inappropriately certified that they did not require a project-specific WQMP, the NPDES Coordinator will notify the project proponent and effectively place a hold on the project until a preliminary project-specific WQMP is completed.

### Review of Preliminary Project Specific WQMPs

The City requires project-specific WQMPs to be submitted as “preliminary” during the discretionary or land use entitlement phase depending upon the level of detail known about the overall project design at the time project approval is sought. However, prior to issuance of grading or building permits, the project applicant must submit the final project-specific WQMP for review and approval. The City uses the Private Project WQMP Checklist provided in Appendix E to facilitate thorough and consistent reviews of preliminary and final project-specific WQMPs. A typical review and approval process flow chart is shown below.

### WQMP Review and Approval Process

Prior to issuing conditions of approval for projects requiring a preliminary project-specific WQMP, the City will review the preliminary project-specific WQMP to ensure:

- The proposed project and land uses are accurately described;

**Attach additional information and/or supporting documents on separate sheet(s) as necessary.**

- That pollutants and hydrologic conditions of concern associated with the proposed project are properly identified;
- That appropriate post-construction BMPs to control the identified pollutants and hydrologic conditions of concern are proposed;
- That the post-construction BMPs proposed are acceptable and properly incorporated into the design for the proposed project; and
- That appropriate maintenance and funding mechanisms for the proposed post-construction BMPs are preliminarily identified.

### **Review of Other Development Projects**

The Engineering Division issues water quality related conditions of approval for discretionary development projects that are not classified as New Development and Significant Redevelopment projects, but may have water quality impacts. These types of discretionary development projects are classified as Other Development Projects and are required to incorporate site design BMPs and source control BMPs, as applicable and feasible, into project plans to ensure that the discharge of pollutants from the development will be reduced to the MEP. For Other Development projects that directly discharge Urban Runoff to Receiving Waters listed as impaired on the CWA Section 303(d) List, treatment control BMPs on a project-specific and/or sub-regional or regional basis may also be required. Brief descriptions of site design BMPs, source control BMPs, and treatment control BMPs are provided in the Riverside County WQMP for Urban Runoff, which is Appendix O to the Riverside County DAMP.

### **Conditions of Approval**

The City applies standard conditions of approval to ensure that the requirements of Section 6 of the Riverside County DAMP are implemented.

### **Review and Approval of Final Project-Specific WQMPs**

Based on the Conditions of Approval issued by, and, if applicable, the preliminary project-specific WQMP approved by, the NPDES Coordinator, the Plan Check will ensure that the final project-specific WQMP is prepared and approved prior to the release of grading or building permits. The Plan Check's role in this phase of the development review process is limited to ensuring that the final project-specific WQMP is complete and ensuring that structural post-development treatment control BMPs are designed properly and shown on appropriate plans prior to the release of building or grading permits.

### **Plan Check: Issuance of Grading or Building Permits**

The Engineering Department will issue conditions of approval, review, or approve grading or building plans for construction-phase related impacts. When projects reach the plan check phase, the applicant must have an approved final WQMP, since the construction plans must incorporate all the structural BMPs identified in the approved final WQMP. Construction plans are reviewed for conformity with the project's approved final WQMP. The construction plans will include descriptions, locations and design details of all the BMPs that are in substantial conformance with

**Attach additional information and/or supporting documents on separate sheet(s) as necessary.**

the preliminary approvals.

**CONSTRUCTION ACTIVITIES**

*2007 Annual Progress Report  
Santa Ana Region NPDES Municipal Stormwater Permit*

Prepared By: Alex Gutierrez Date: September 3, 2007

**Provision No. IX.A of the Permit requires each permittee to develop an inventory of active construction sites and maintain the inventory in a computer database system.**

1. Has your agency developed and maintained an electronic database of active construction sites as specified in Section **IX.A.1** of the Permit? Yes  No   
If yes, attach a completed summary Construction Site Inspection form as specified in Section **IX.A.1 & 10**.
  
2. Has your agency inspected and prioritized all inventoried construction sites as specified in Section **IX.A.2 & 3** of the Permit? Yes  No

**Provision Nos. IX.A.5 & 6 of the Permit requires each Permittee to provide training to staff involved in inspecting construction sites.**

1. Has your agency provided training to staff involved in conducting inspections at construction sites in the following areas:
  - a. Stormwater ordinance, resolutions and codes Yes  No
  - b. The Order and the DAMP Yes  No
  - c. The Construction Activity Permits Yes  No
  - d. Enforcement and compliance procedures Yes  No
  - e. Stormwater pollution prevention plans Yes  No
  - f. Selection and maintenance of appropriate BMPs for construction sites, including erosion and sediment control Yes  No

If yes, please identify the training session information. Attach additional sheets if necessary.

Date	Location	Sponsor	No. of Participants	Department

*(continued on next page)*

2.A. Have staff members in the public works, engineering, building, or planning departments attended any training classes on construction site BMPs? Yes  No

If yes, please identify the training session information. Attach additional sheets if necessary.

Date	Location	Sponsor	No. of Participants	Department

2.B. What did the training emphasize (IX.A.5)?

BMP selection   
 Material management practices   
 Water quality impacts   
 The Order, WQMP and the DAMP

BMP Installation   
 BMP maintenance   
 Construction Activity Permits   
 Enforcement and Compliance   
 Procedures

Other (describe) \_\_\_\_\_

3. If any of the above points have not been met, please describe what action is currently being taken to satisfy the requirement(s). Also, please provide an estimate of completion for any outstanding tasks.

**With the addition of new personnel and support staff their will be an increased availability to attend training seminars.**

Date: September 3, 2007

**Provision Nos. IX.B & C of the Permit requires each Permittee to develop and update an industrial and commercial facilities database, including facility information, priority, and inspection information.**

1. Has your agency developed and maintained an industrial and commercial facilities inventory database as specified in Section **IX.B.1 & C.1**? Yes  No

If yes, attach the database with a summary of the number of industrial and commercial facilities compliance surveys/inspections and the actions taken as specified in Section **IX.B.9 & C.9**.

2. Has your agency prioritized and inspected all inventoried industrial and commercial facilities as specified in Section **IX.B.2 & 3 and C.4 & 5**? Yes  No

3. Has your agency updated the commercial site database to include the additional categories of commercial facilities as specified in Section **IX.C.2**? Yes  No

4. As specified in Section **IX.B.4**, do your agency's industrial facility compliance surveys and inspections address the following?

- a. Check for submittal of NOI to comply with the General Industrial Permit? Yes  No

- b. Confirm compliance with your agency's Storm Water Ordinance? Yes  No

- c. Check for active non-storm water discharges, potential illicit connections, and illegal discharges to the MS4? Yes  No

- d. Potential for discharge of pollutants in Urban Runoff from material storage areas, vehicle or equipment fueling or maintenance, waste handling, hazardous materials handling or storage, delivery areas or loading docks, or other hazardous outdoor work areas? Yes  No

- e. Implementation and maintenance of appropriate BMPs for industrial facilities? Yes  No

*(continued on next page)*

## **MUNICIPAL FACILITIES PROGRAMS AND ACTIVITIES**

*2007 Annual Progress Report  
Santa Ana NPDES Municipal Stormwater Permit*

Contact Person: **Alex Gutierrez**  
Prepared By: **Alex Gutierrez**

Telephone: **951-671-3124**  
Date: **September 16, 2007**

**Provision No. XI.C of the Permit requires each Permittee to review their activities and facilities to determine the need for revisions to the Municipal Facilities and Activities program (Municipal Facilities Strategy).**

1. Please provide the findings of the Municipal Facilities and Activities program review and a schedule for revisions, if needed.

**Staff does not feel any revision are necessary to the current Municipal Facilities and Activities program.**

**Provision No. XI.D of the Permit requires each Permittee to evaluate their established *criteria for inspections* of the MS4s and establish *criteria for regular maintenance* thereof. The MS4 includes catch basins, open channels, and retention/detention basins. This information was initially required in the 2003 Annual Report and is to be evaluated and reported annually.**

1. Describe your agency's *criteria for regular inspections* of the elements of your MS4 facilities considering the following factors as applicable:
  - Time of year
  - Type of facility (storm drain inlet, open channel, retention/detention basins)
  - Tributary watershed/land use considerations
  - Proximity to Receiving Water
  - Receiving Water beneficial uses and impairments of beneficial uses, historical pollutant types and loads from past inspections/cleanings
  - Regulatory restrictions (TMDL)
  - Cost/benefit

**The MS4 facilities are observed by field crews during their daily work all year. A special inspection is made prior to rainy season for cleaning of the facilities.**

**MUNICIPAL FACILITIES PROGRAMS AND ACTIVITIES**

*2007 Annual Progress Report*

*Santa Ana NPDES Municipal Stormwater Permit*

2. Describe your agency's *criteria for regular maintenance* of your MS4 facilities considering the following factors as applicable.
- Time of year (pre-storm season, post storm season)
  - Type of facility (storm drain inlet, open channel, retention/detention basins)
  - Type of material accumulated in facility (hazardous, sanitary waste, litter, sediment, vegetation)
  - Type of structural restoration needed
  - Tributary watershed/land use considerations (urban/non-urban, industrial, commercial, residential)
  - Proximity to Receiving Water
  - Receiving Water beneficial uses and impairments of beneficial uses
  - Historical pollutant types and loads from past inspections/cleanings
  - Regulatory restrictions (TMDL)
  - Cost/benefit

**Streets and gutters are swept on a periodic basis. Catch basins are cleaned as need and or before rainy season. Channels are cleaned on as needed basis.**

**Provision No. XI. G of the Permit requires each Permittee to evaluate the inspection and maintenance frequency for the MS4 on an annual basis.**

1. Has your agency evaluated your program for the MS4 inspection and maintenance frequency?  
Yes  No

Describe the results of the evaluation and identify modifications to your agency's program as a result of this evaluation.

**The City's inspection and maintenance program is in the process of being developed with input from both the Public Works Manager, City Engineer, and NPDES Coordinator. Once the program is developed and adopted by Council, Public Works and the NPDES coordinator will undertake the task of inspecting all City maintained Storm Drains and Channels. In the event maintenance is required Public Works shall be responsible for making any necessary repairs or modifications.**

**Attach additional information and/or supporting documents on separate sheet(s) as necessary.**

**MUNICIPAL FACILITIES PROGRAMS AND ACTIVITIES**

*2007 Annual Progress Report*

*Santa Ana NPDES Municipal Stormwater Permit*

**Provision No. XI.K of the Permit requires each Permittee to provide training to the public agency staff and to contract field operations staff on fertilizer and pesticide management, model maintenance procedures, and other pollution control measures. Permittee staff responsible for application of fertilizer or pesticides shall attend at least three of these training sessions during the five-year term of this Order (from 2002 to 2007).**

2. Describe the training that your agency staff and/or contract field operations staff have received regarding fertilizer and pesticide management, model maintenance procedures, and other pollution control measures.

**Staff members have attended seminars sponsored by California Storm Water Quality Association as well as by the Maintenance Superintendent Association. Licensed Pesticide Applicator members of our staff have trained our field crew and routinely supervise the process in the field.**

---

**Provision No. XI.M of the Permit requires each Permittee to annually evaluate their street/road sweeping frequency based on land use and historical information to determine the need to revise their sweeping frequency.**

3. Describe the measures that your agency has taken to evaluate the street/road sweeping frequency based on land use and historical information to determine the need to revise their sweeping frequency.

**The city is under contract with CR&R. The Street sweeping scheduled has been monitored and reviewed, the bi-monthly sweeping of arterials and local roads has proven to be adequate. Supplemental sweeping during rainy season is done as needed by city staff. At this time Staff does not feel a change in frequency is warranted based on existing Zoning and General plan Designations.**
